REPUBLICAN PLATFORM VOTING SCORE CARD

2011 86th Session of the South Dakota Legislature

The majority of South Dakotans are registered Republicans (R). When we elect Republican candidates, it is with the understanding that they will represent our will, not their own, or that of the other party. Our explicit will is summarized in the "planks" of the SDGOP platform: http://southdakotagop.com/pdf/2010_SDGOP_PLATFORM_FINAL.PDF. This is a snap shot of how our legislators voted on some issues of concern for South Dakotans and our platform. It is a scorecard of votes "With" the planks of SDGOP's Platform, those "Against," and "Excused" votes. This index was compiled by Republicans from across the state at all levels of our state Republican party. We encourage you to further research the data compiled here at http://www.Legis.state.sd.us/ and to engage legislators who appear remiss in representing Republican principles and values. It is important to note that if legislators consider a bill "bad" or not "perfect", they can amend any and all of the bill throughout the legislative process. Bills against ObamaCare, Illegal Immigration and Sharia Law were intoduced during this session and were deferred to the 41st day (killed) by the committee rather than being amended and sent to the floor for a vote or further amendment.
